

FCC Commissioners
The Federal Communications Commission RE: Docket 04-435
445 12th Street, SW
Washington, DC 20554

Dear FCC Commissioners ,

I believe relaxing the restrictions on the use of cell phones on airplanes during flight is a bad idea and here is why:

- 1)There is no hard evidence that cell phone use doesn't interfere with navigational instruments.
- 2)The introduction of cell phone use in the cabin will increase tension among passengers.
- 3)Cell phones will compromise flight attendants' ability to maintain order in an emergency.
- 4)Cell phone use could also enable terrorists to coordinate a plan of action more effectively.

Please do not change the current rules.

Sincerely,

Joy Roberts
